NodeJS | ExpressJS | REST | Web Socket | Python | GraphQL (L)

- DataBase

MongoDB | MySQL | PostgreSQL (L)

- Tools & Methodologies

GIT | JWT | OAuth | NPM | Vite | Shell Scripting | Postman

EDUCATION

Bachelor of Computer Applications, Glocal University
May 2023 - May 2026

PT Salagram JH School, Habipur Greater Noida (UP)
April 2022 - April 2023

Sahil Public School, Bisrakh Grater Noida (UP)
April 2021 - April 2022

LANGUAGES

English : Fluent

Hindi : Native

PROJECTS / FREELANCE WORKS

Management Software *Source Code*

- Developed a full-stack Franchise Management System with Admin and Franchise panels, including user signup and login, franchise application approval, rejection, and revocation features.
- Implemented secure authentication and authorization using JWT and bcrypt, with user profile management and protected routes.
- Built a billing and invoice system where invoices are generated and automatically sent to customers via WhatsApp, with complete transaction records stored in MongoDB.
- Integrated real-time email notifications for user registration, first login, and franchise status updates, along with admin tools to manage, compare, and monitor franchise performance and sales.

Chat-Web-App *Source Code*

- Developed a real-time chat application using the MERN stack (MongoDB, Express.js, React.js, Node.js) with secure user signup/login authentication.
- Implemented live messaging with online/active status indicators, enabling users to see who is currently online.
- Built user profile management features, including profile icon and profile update functionality.
- Added 32 customizable UI themes to enhance user experience along with a responsive and modern interface.

Gold Finance Website *Source Code*

- Developed a fully responsive finance website using Tailwind CSS and Framer Motion with smooth UI animations and modern design.
- Integrated live gold price data using the GoldAPI.io API, allow users to check the current gold rate in real time.
- Implemented a multi-language feature supporting 9 languages, enabling users to switch and view the website in their preferred language.
- Added a contact form with Nodemailer integration to send user inquiries directly via email.

ACHIEVEMENTS

- Winner of Hackathon 2K25 in the Best Social Impact category organized by Avviare Educational Hub.
- Postman Student Expert (RESTful API Testing & Development)
- Developed age-restricted content locking and category-based video features for a video web application.
